

# Elevate with **Endurance**

**DOUBLE SIDE DECORATIVE LAMINATES**

# ABOUT US

Started in 2019, JYJ Industries takes pride in being recognized as a star export house and a pioneering laminate brand having its manufacturing setup in Gujarat, INDIA. We are a truly world class manufacturing unit which has products manufactured to the most stringent international standards. In a short span of time JYJ Industries has shown its technological process by introducing laminates range for a variety of commercial applications. Our commitment to innovation extends to all aspects of the company. With an emphasis on fashion and performance, JYJ Industries creates unique products that add style to every space.

At JYJ Industries we believe that quality of life world over is undergoing a radical change. It is majorly influenced by the environment and ambience of the surroundings. Therefore innovation is the call of the day and it is research and development which helps in creating perfect environment that ultimately influences the productivity of an organization. It is in this perspective that laminates majorly contribute to create a perfect environment to improve upon the overall productivity of an organization.

JYJ Industries is managed by highly professionals who are in the laminate business since decades. The total quality management technique, six sigma standards are being maintained to manufacture the laminates in cost effective manner. Our laminates are manufactured as per buyers color choice and texture and meet the world class standards.

## Vision

To offer purposeful future ready laminates that transform spaces and enrich lives with commitment to innovation on every front.

## Mission

We will strive to relentlessly pursuit to delight you with newer designs and ways to style your spaces, keeping in mind ever-changing needs and trends.

## Values

Our core values are built on Passion, Integrity, Unity, Innovation and Impact. We implement these core values in every aspect of our operations, through which we foster innovation and value.

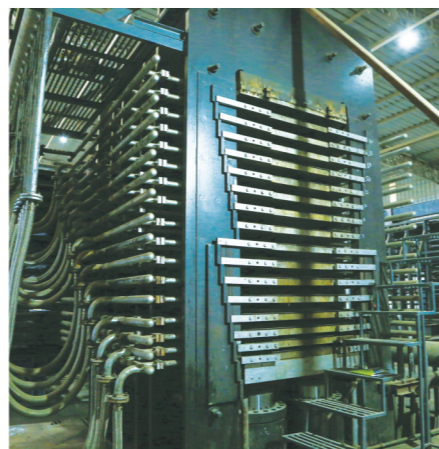

## Infrastructure

The state of the art manufacturing unit is setup in 13,000 Sq. yards and with a production capacity of 2.5 Million sheets per year. From raw materials to end products, at JYJ Industries we specialize in creating products which are aligned with the latest international trends and market demands.

Our state of the art machineries manufactures uniform and superior sanding which ensures best bonding with substrates. We believe in creating exceptional quality, unsurpassed artistry and impeccable style to every sheet we manufacture.

We have a largest capacity of hydraulic press in India which can manufacture following sizes of laminate sheet i.e. 8'x4', 9'x4.25' and 10'x4.25'.

With proven track record of quality, durability and reliability, we have become more of a generic brand in nature.

## Our Technology

TECHNOLOGY

Technology is always at the forefront of the company. Our production facility is relied on three major aspects i.e. World Class Raw Materials, New Age Machinery and Seasoned Technocrats who deliver World Class Products making them a wise choice for our consumers.

RAW MATERIAL

At JYJ industries, we always strive for perfection and offer admirable range of products using best in class raw materials i.e. Kraft Paper, Phenolic Resin, Decorative Printed Paper, Melamine Resin and Clear Translucent Paper. We achieve Precision and Consistency with imported plates to impart highest level of finish in the product.

QUALITY CONTROL

We believe to bring innovative surfacing solutions which are affordable, stylish, practical and responsible. This feat cannot be achieved without maintaining superior and stringent quality standards. Our every product passes through high standards of quality tests such as heat resistance, crack-resistance, stain resistance and scratch proof.

EXPORTS

In a short span of time we have marked our presence globally. Our global footprints reaches across Middle East countries and we are further expanding our presence in countries like US and EUROPE. With an experienced marketing team and top management at the helm of affairs overseeing the day to day growth and activities we are rapidly covering the road to success.
